External Incident Log
Target - Fewer than 50 Incidents per Day

Reported By:		Mon	Tues	Wed	Thur	Fri	Total Resolved
De Silva	Total Incidents reported	49	52	48	53	46	223
	Of which unresolved	3	6	4	7	5	
Sha	Total Incidents reported	62	57	57	66	69	291
	Of which unresolved	5	4	2	6	3	
Crouch	Total Incidents reported	71	73	72	68	65	339
	Of which unresolved	3	4	0	1	2	

1. Approximately what percentage of all the incidents reported by De Silva during the week were unresolved?

○ 4%

○ 5%

○ 8%

○ 10%

○ 13%

Numerical Reasoning Example 1 Answer

Correct Answer: 10%

There were a total number of 248 incidents reported for De Silva during the week (223 resolved + 25 unresolved). Of the total number of incidents, 25 were unresolved, which is approximately 10% of 248.

Numerical Reasoning Example 2 Answer

Correct Answer: False

There were a total number of 182 total incidents reported on both Monday and Tuesday. Therefore, it is false to say that there were more incidents reported on Tuesday than on Monday.
